

Wilson's Bird-of-Paradise *Cicinnurus respublica*

He may be small, but the male Wilson's Bird-of-Paradise is striking and colorful. They are the embodiment of ornamental extremes, with curled tail feathers and a skullcap of bare blue skin. They live only on two islands off of western New Guinea, where males clear and maintain display "courts" on the ground.

Please enjoy this coloring page excerpted from *Birds of Paradise: A Coloring Expedition* coloring book from the Cornell Lab of Ornithology, published by Princeton University Press.

Take a mindful coloring journey into the pristine forests of the New Guinea region, home to the fascinating and visually stunning 39 birds-of-paradise. Join original expedition team leader and world expert on birds-of-paradise, Dr. Edwin Scholes, and renowned photojournalist Dr. Tim Laman, to experience the sheer beauty of these incredible creatures through coloring.

If you would like to purchase your own copy of *Birds of Paradise: A Coloring Expedition*, we invite you to visit www.CornellLabPG.com and use promo code **CLPG2020** to **SAVE 25%** on this and other Cornell Lab coloring books, puzzles, field guides, playing cards, children's books, and more when you spend a minimum of \$40. Offer valid through 12/31/20.
